

## ABOUT US

Choosing the right consultant is important and verifying someone's credibility can be hard. Our clients never doubt our experience or credibility. That's because we were backed by the nation's leading and most respected organizations. It is no secret that modern threats and attacks on society from terrorists and criminals are on the rise.

Bluline Security Consulting is geared toward identifying your threats and exposing your vulnerabilities. We offer a wide range of services tailored to government contract clients, business clients, and residential clients. Recognizing your vulnerabilities enables us to develop strategies, plans, and training that will reduce your exposure to injury and liability.

## We Are A Part Of Trusted Associations

### *\*Ethical Standard*

Consultations are impartial to product recommendations as Bluline Security Consulting is not associated or affiliated with any product. Our team of active and retired police officers deliver services backed by the best products and plans guaranteed to suit your needs.

## OUR MISSION

Provide realistic & affordable services that secure all that you value & improve your overall safety.

## Security Consulting Services

Approved and Provided by POLICE™

## OUR SERVICES

- ✓ Threat & Risk Assessments
- ✓ Residential Risk Assessments
- ✓ EMS, Fire & Security Assessments
- ✓ Law Enforcement Assessments
- ✓ Active Shooter / Workplace Violence Training

### IS YOUR TEAM PREPARED?

Our prevention training programs are designed to provide your employees with the skills and know how to deal with an active shooter and de-escalate workplace violence.

## THREAT & RISK ASSESSMENTS

There are a growing number of attacks on commercial and government buildings that can leave your business or facility at risk. Our risk assessment and threat investigation specialists will perform a thorough evaluation to target these vulnerabilities and provide the most up-to-date plan to resolve your trouble points and secure your property. Safety is important, so our Threat & Risk Assessments include a free one-year follow-up assessment to reevaluate for compliance and new vulnerabilities.

Partner with our experts at your agency to review and assess your daily operating procedures and general orders to enhance your safety.

## RECEIVE PROPER TRAINING

Proper training lowers the likelihood for liability from excessive and negligent force, injuries, and death. Annually, there are around 2 million workers affected by workplace violence and on average a reported 500 workplace homicides each year. 70 percent of active shooter incidents occur in commercial businesses and educational facilities.

OSHA defines Active Shooters and Workplace Violence as "recognized hazards". Fortunately for our clients, we make it easy for you to maintain your compliance with these standards. The training and services we provide may assist in preventing the unthinkable.

## CLASS FOCUSES

- ✓ Prevention & Detection Strategies
- ✓ Response Tactics & Strategies
- ✓ Medical Training / Tourniquet
- ✓ Employer Policy
- ✓ Risk Mitigation
